PROFESSIONAL SUMMARY

Performance-driven Software Engineer with 4 years of professional experience building and operating production-grade, cloud-native web applications. Specialist in Front-End and Full-Stack development using React, Vue, and Nuxt (SSR) to deliver scalable, API-driven systems. Proven track record of optimizing application performance by 50% and designing modular component libraries that reduced development time by 90%. Strong foundation in RESTful architectures, microservices, and CI/CD workflows within Agile environments.

PROFESSIONAL EXPERIENCE

Software Engineer

March 2026 – Present

Humber Polytechnic • Toronto, Canada

- Spearheading the evolution of existing web architectures by identifying and refactoring legacy modules to improve overall system scalability and maintainability.
- Owning the end-to-end implementation of a new web application layer tailored for external stakeholders, ensuring seamless data flow and integration between disparate internal systems.
- Collaborating with cross-functional teams to define technical requirements for stakeholder-facing interfaces, focusing on high-performance delivery and intuitive user journeys.
- Leveraging previous experience in SSR and component-driven design to accelerate the deployment of the new stakeholder platform while maintaining strict code quality standards.

Engineering Team Leader

May 2025 – Sep 2025

HRXConnect • Toronto, Canada

- Led end-to-end development of a corporate gifting platform connecting small-scale vendors with corporate clients.
- Managed the implementation of secure RESTful API integrations and payment processing, simulating production constraints and change management procedures.
- Coordinated project timelines and stakeholder communication to ensure the delivery of a scalable and user-friendly product.

Front End Engineer

Jun 2020 - Sep 2023

Pivoting Software Pvt. Ltd. (Clientjoy) • Ahmedabad, India

- Owned the full feature lifecycle from technical design and architecture to deployment and monitoring for "Linkjoy" using Vue.js and Laravel.
- Built and maintained scalable, API-driven systems while diagnosing and resolving critical production issues to improve overall system stability.
- Architected a reusable front-end component library that ensured platform consistency and reduced feature delivery time by an estimated 90%.
- Drove significant performance gains, reducing application load times by over 50% through architectural improvements, profiling, and Front-End Optimization (FEO) techniques.
- Partnered closely with product managers and designers to translate complex business requirements into pixel-perfect, accessible user-facing features.
- Championed engineering best practices by leading code reviews, authoring technical documentation, and maintaining high standards for system quality.

Software Engineer Intern

Jan 2020 - Apr 2020

Pivoting Software Pvt. Ltd. (Clientjoy) • Ahmedabad, India

- Contributed to full-stack development using React, Vue, and Laravel on a wholesale distribution marketplace project.
- Implemented mobile-first, responsive web designs using modern JavaScript and CSS libraries.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, PHP, Java, Python, SQL
- **Frameworks & Libraries:** React, Vue, Nuxt.js, Node.js, Laravel, Django, Spring Boot, Webflow
- **Backend & APIs:** RESTful APIs, Service-Oriented Architecture, Microservices Fundamentals
- **Databases:** SQL, MySQL, PostgreSQL, MongoDB, Neo4j
- **Cloud & Infrastructure:** AWS (Hands-on), Azure (Conceptual), Docker, CI/CD Pipelines, Monitoring & Observability
- **Developer Tools:** Git, GitHub, Postman, Application Performance Monitoring (APM) tools

OTHER EXPERIENCE

Test Supervisor / IELTS Invigilator

Apr 2024 - Present

Centennial College • Toronto, Canada

- Manage highly regulated testing processes, ensuring strict compliance with security protocols and documentation accuracy.

Event Ambassador

May 2025 – Sep 2025

Humber College • Toronto, Canada

- Supported large-scale events by coordinating logistics, volunteers, and vendors while ensuring clear communication and smooth execution

EDUCATION

Information Technology Solutions

2024 - 2025

Humber College • Toronto

Master of Science in Information Technology

2018 - 2020

DA-IICT • Gandhinagar, India

Bachelor of Computer Applications

2015 - 2018

GLS FCAIT • Ahmedabad, India

AWARDS AND HONOURS

- **Bronze Medal, Skill Ontario** — Web Design & Development (2025)
- **Winner**, Smart Gujarat for New India Hackathon — Health & Family Welfare Department (2018)

ADDITIONAL

- Volunteer leadership experience supporting large-scale cultural and public events, including logistics coordination, crowd management, and stakeholder communication
- Photographer Team Lead for university events, contributing to event execution and team coordination
- Event host experience for audiences of 500+ attendees
